

CLEANING & PROPERTY CARE

EVERY SPACE. EXCEPTIONALLY CARED FOR.

COMPANY PROFILE

Residential | Commercial | Specialist

More than cleaning. Care that shows.

A PARTNER FOR EVERY SPACE

Ashley Elite Cleaning Services LLC provides cleaning and property care across residential, commercial and specialist settings.

Our approach starts with understanding each space: its surfaces, daily use and cleaning priorities. We build the scope around those needs, from routine upkeep to focused deep cleaning.

OUR FOCUS

Homes
Workplaces
Buildings
Specialist care

03 / OUR PURPOSE

Care. Consistency. Attention to detail.

01

Our mission

To help clients maintain cleaner, more welcoming spaces through practical cleaning solutions and attentive service.

02

Our vision

To be a dependable cleaning partner for homes, businesses and facilities.

03

Our values

Respect for property. Clear communication. Responsible working. Care in the details.

One partner. A broad range of care.

Residential cleaning

Building & commercial

Deep cleaning & care

Carpets & textiles

Tanks & containers

Glass & signboards

Dry ice blasting

Disinfection services

Showroom & vehicles

Also available: horse equipment repair & maintenance.

Comfort starts with a clean home.

FOCUSED CARE

From apartments to villas, cleaning is planned around the household, the surfaces and the areas that need attention.

Everyday living areas

Dusting, accessible surface wiping and floor cleaning.

Kitchens & bathrooms

Focused attention to worktops, fixtures and washable surfaces.

Flexible service scope

Routine visits or a more detailed clean, tailored to the property.

Spaces that make the right impression.

Cleaning support for offices, buildings, retail areas and shared spaces, with a scope shaped around access and operating hours.

01

Workplaces

Offices, meeting rooms, reception areas and washrooms.

02

Shared building spaces

Lobbies, corridors, stairs and common-use areas.

03

Business continuity

Cleaning schedules coordinated with site access and daily activity.

Detailed care, from corner to corner.

A focused approach for spaces that need more than everyday upkeep, including move-in preparation, periodic deep cleaning and residential property care.

Detailed surface attention

Edges, corners and accessible areas that need extra care.

Property readiness

Cleaning before occupancy or after a property has been vacated.

Ongoing property care

A practical plan for keeping residential spaces presentable.

Freshness you can see and feel.

FOCUSED CARE

Cleaning and care for carpets, rugs and upholstered furnishings, alongside carpet and textile mending where suitable.

Carpet & rug cleaning

Cleaning methods selected for the material and condition.

Upholstery care

Fabric-compatible treatment for sofas, chairs and soft furnishings.

Mending & finishing

Textile repair requirements reviewed before work is agreed.

Specialist attention. Careful preparation.

TANKS & CONTAINERS

Cleaning services for tanks and containers, with work planned around the tank type, contents history, access conditions and agreed cleaning requirements.

01

Assessment before cleaning

Confirm the tank or container type and cleaning objective.

02

Planned site arrangements

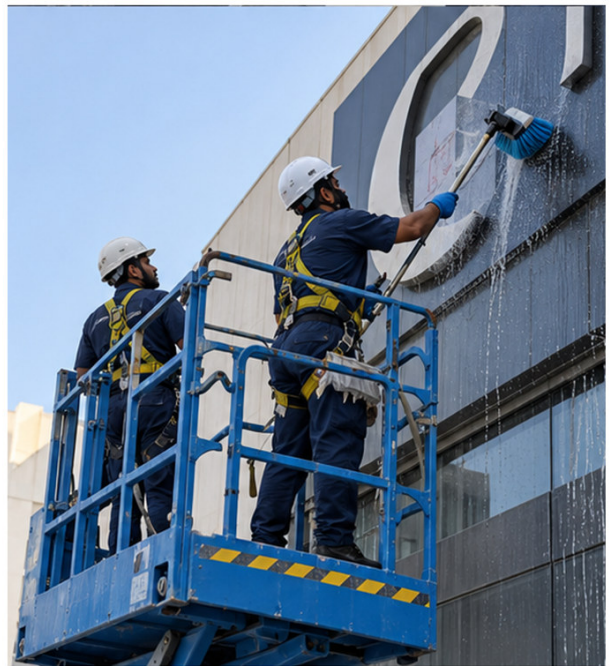

Agree access, isolation and safety requirements before work.

03

Completion review

Review the cleaned condition against the agreed scope.

A clearer view. A brighter presence.

Building glass and advertising signboard cleaning to remove surface dust and buildup and refresh the appearance of visible surfaces.

Building glass

Cleaning accessible glass, frames and presentation surfaces.

Advertising signboards

Removal of dust and suitable surface deposits.

Access-aware planning

Work methods selected to match height, access and materials.

A focused method for specialist surfaces.

FOCUSED CARE

Dry ice blasting uses solid carbon dioxide pellets to help remove suitable surface contaminants. Each application requires an assessment of the material, equipment and working environment.

Application review

Confirm suitability for the equipment, surface and contaminant.

Controlled working area

Plan ventilation, protective equipment and site arrangements.

Surface-conscious cleaning

Agree the expected outcome before treatment begins.

Care for frequently used environments.

DISINFECTION & STERILIZATION

Disinfection and sterilization services are planned to match the application, surface compatibility and required treatment method. The service scope is confirmed before work begins.

01

High-touch surfaces

Attention to commonly handled points and shared-use areas.

02

Suitable treatment methods

Products and procedures matched to the intended application.

03

Clear treatment scope

Contact time, access and re-entry arrangements agreed as needed.

Presentation, inside and out.

Cleaning for showroom floors, glass and customer areas, together with vehicle cleaning needs. A complementary part of our wider cleaning service offering.

Showroom care

Floors, display surroundings, glass and visitor-facing areas.

Vehicle cleaning

Interior and exterior cleaning as agreed for each vehicle.

Care around valuable finishes

Methods selected with attention to material compatibility.

Detail in the work. Clarity in the process.

ADDITIONAL CARE

Horse equipment repair & maintenance

Support based on item condition
and an agreed service scope.

HOW WE WORK

- 01** Understand your requirements
- 02** Assess the space and surfaces
- 03** Agree the scope and schedule
- 04** Complete the service and review
